Client Comments

Lyndsay and Wendy were instrumental with their guidance during my home remodel process. I had a general vision but with their help I was able to narrow down my focus and get clarity on not only my design style but also make choices that were reflective of how I'd actually live in/use the space.

We used the **"Pinterest Possibilities & Decisions 1-on-1 Personal Zoom Workshop"** to go over my vision and style in detail, I had complete confidence in their selections knowing they knew what would work best in my space.

Having Lyndsay and Wendy as my sounding board and providers of suggestions I wouldn't otherwise have thought of truly enabled me to design my dream home. I am truly so grateful - thank you gals! - **Bella**

The Haven Design Academy (DIY training) was some of the best money I have ever spent. The course allows you to work at your own pace, all the while encouraging every participant to access and nurture their own sense of style.

You're taught the technical and practical skills necessary to help translate your design ideas into reality.

The added bonus of weekly calls and a private group with other members, allows a great sense of community and the collaboration of great ideas. This experience was so much fun and extremely helpful. There is nothing else on the market that offers so much for so little.

The knowledge and confidence I gained will stay with me forever. - **Kristen D**

"Thank God for **How We Haven Membership!** I have a hard time visualizing a new space and layout and am so scared of making design mistakes. Lyndsay and Wendy came into my life and simplified the whole process, and I was finally able to confidently move forward with decisions for the redesign.

They really know how to help hone in the focus on your personal style, budget, and overall needs. I would highly recommend them to anyone who wants to work WITH someone rather than feeling pressured into someone else's design style.

I know this room will reflect my personality and style but it's something I could not envision until How We Haven helped." - **Shannon H.**
